

Advanced Provider Solutions (PayDC Chiropractic Software) Receives Final ONC-ACB Certification by Drummond Group

July 10, 2014 – Advanced Provider Solutions, LLC (d/b/a PayDC Chiropractic Software) has been tested and certified under the Drummond Group's Electronic Health Records Office of the National Coordinator Authorized Certification Body (ONC-ACB) program. This EHR software is compliant in accordance with the criteria adopted by the Secretary of the U.S. Department of Health and Human Services.

“We are thrilled to have earned this final 2014 EHR certification and seal of approval”, said Craig Scott, CEO of Advanced Provider Solutions’ PayDC Chiropractic Software. “It is a testament to the talent and diligence of our development team and provides our clients with the tools they will need to serve their patients well and earn available federal stimulus dollars”.

Drummond Group’s ONC-ACB certification program certifies that EHRs meet the meaningful use criteria for either eligible provider or hospital technology. In turn, healthcare providers using the EHR systems of certified vendors are qualified to receive federal stimulus monies upon demonstrating meaningful use of the technology – a key component of the federal government’s push to improve clinical care delivery through the adoption and effective use of EHRs by U.S. healthcare providers.

PayDC Chiropractic Software, which met the requirements for EHR Modular (Ambulatory) certification, is a comprehensive, all-in-one, cloud-based practice management software solution for chiropractors.

“Leveraging information technology for healthcare initiatives provides the opportunity to deliver a high-level quality of care and efficiency which essentially benefits and enhances the overall patient experience,” says Rik Drummond, CEO of the Drummond Group Inc. “We have been testing software for more than a decade and will continue to provide our extensive experience testing and certifying complex systems for multiple industries, as well as ensuring interoperability and security remain key components in the growing healthcare industry.”

This EHR Modular (Ambulatory) certification is 2014 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.
