

See What's New from PayDC!

At PayDC, we are constantly updating and improving our system. We are listening to your suggestions and addressing them. Check out our latest and greatest features and enhancements!

Latest Features and Update (May 22, 2015)

Functional Enhancements

- ✓ Settings/Notes: Continuing to update additional modifiers for specific procedure codes. Modifier that was added in this release: Q5.
- ✓ Patient Portal: Ability for the patient to Check-in as arrived for their appointment, without being directed to the Subjective page.
- ✓ Notes: Narratives: Add Elder Mobility Scale to Outcomes Assessment and SOAP Note narrative.

NOTE: Details Regarding These Functional Enhancements Are Provided Below

Functional Enhancement Detail.

Patient Portal now provides the ability for a patient to be able to Check in or to Check in and update their subjective notes section. For just Checking in, click the Check in tab:

The screenshot shows the Patient Portal interface. At the top, there is a blue header with the text "Patient Portal" on the left and "Welcome support@paydc.com! [Log Off]" on the right. Below the header, there is a navigation bar with four tabs: "Check In", "Check In (Subjective)", "Home", and "About". A red arrow points to the "Check In" tab. Below the navigation bar, there is a section titled "PayDC PROD Testing Subscription". Under this section, there is a text input field with the placeholder text "Edit patient demographics, enter patient subjective findings, or enter a new patient". Below the text input field, there is a prompt "Choose one of the 5 options below:" followed by five buttons: "Edit Patient Demographics", "Edit Patient's Subjective Findings", "Enter a New Patient", "Patient Check-In", and "Outcomes".

Enter last 4 digits of SSN & year of birth, and click Check In at bottom.

The screenshot shows the Patient Portal interface with the "Check In" tab selected. The header and navigation bar are the same as in the previous screenshot. Below the navigation bar, there is a form with two columns. The left column is titled "Last 4 digits of SSN" and the right column is titled "Year of birth". Each column has a text input field at the top and a numeric keypad below it. The numeric keypad has buttons for digits 1 through 9, 0, and a "Backspace" button. At the bottom of the form, there is a "Check In" button.

Check in is completed and can click Finish

Choose appropriate scale (0 to 20) rating based on the assessment performed.

Outcome	Score
Elderly Mobility Scale	3

For total score of 3, the narrative reads as follows:

History of Present Illness:

The patient presents with stabbing pain located in neck that has held at 7 out of 10.

Second Complaint: right pelvis, left pelvis

The patient presents with stabbing pain located in right pelvis, left pelvis that has held at 5 out of 10.

Third Complaint: right pelvis

The patient presents with pain with motion located in right pelvis that has held at 8 out of 10.

Family history: Father has history of Asthma, Mother has history of Ulcer.

dee testdee test

Objective:

Exam findings:

Range of Motion: Cervical ROM: Flexion is within normal limits, test comments in rom.

Dermatomes: unremarkable Left-C2.

Outcomes Assessment: Elderly Mobility Scale score is 3 (Dependent in mobility maneuvers & requiring help with basic ADLs (transfers, toileting, dressing etc.). May require Home Care Package/Long Term Care depending on patients' wishes and circumstances).

Spinal Fixation/Malposition/Palpatory findings: C1; C7; T3; T7; T8.
