Latest Features and Update (January 21, 2015)

Functional Enhancements

- ✓ Settings/Notes: Continuing to update additional modifiers for specific procedure codes. Modifiers that were added in this release: AT, RT, & LT.
- ✓ Billing/Posting: Ability to export patient and/or insurance payments from the Find Payment option to Excel.
- ✓ Scheduler report: Updated to include the patient phone number and the display of the patient name when a middle initial is being used.
- ✓ Settings: Ability to include a description of the Ortho/Neuro tests in the narratives.
- ✓ Care Plan/Narratives: When choosing N/A for the number of times per week, the number of times per week are no longer specified in the narratives.
- ✓ Care Plan: Added a checkbox that will enable the Physician to confirm and sign the recommendations made by the PT.
- ✓ Notes/Narratives: List only highlighted exam findings in a narrative, if a note is marked as a “non-examination”.
- ✓ Mobile SOAP Notes App: Ability to see the previous exam findings for Range of Motion from the previous exam.

NOTE: Details Regarding Select Functional Enhancements Are Provided Below

Functional Enhancement Detail.

Billing/Posting: From the Find Payment screen, choose the Export to Excel button for the payments to go into an Excel worksheet.

CarePlan Wizard: Viewing the Finalized CarePlan for Dee DGstageportal

CarePlan Narrative
Preview of the narrative document describing the CarePlan

Date of Plan: 1/20/2015
Patient Name: Dee DGstageportal
Patient ID#: 005963
Doctor Name: Pro PayDC, DC

Based on a detailed New Patient Examination Level 1 (99201), performed on 1/20/2015, the following CarePlan was created for Patient Dee DGstageportal:

Diagnoses:
724.2 Lumbago
723.1 Cervicalgia
724.3 Sciatica
728.85 Muscle Spasm

Contributing Conditions:
Hypothyroidism
Lack of core strength

Aggravating Conditions:
Job requires sitting for long periods
sits a lot during the day at school
works on computer

Diagnostic Tests:
Xray cervical 2-3 views (72040) performed to the Neck for the following reason: Evaluating the degree of biomechanical deviation that causes structural weakness, degeneration and i.

Based on the findings, there will be one stage of care: Active/Corrective. The long-term goals are avoid surgery, convert to wellness, increase core strength, sit for 5 hrs at a time, better sleep, and better quality of life. Based on the patient's condition, re-evaluations are planned, for each stage of care, to assess the benefits of care and ensure functional

Instruction will be performed to the Neck, Upper Back, Mid Back, and Low Back, to enable the patient to manage their injury at home. 1 unit will be provided 1 time per week for 1 week.
Level 3 Re-evaluations will be performed once every 4 weeks.

The patient will be re-evaluated at the end of care, with Level 3, at which time the next phase of care will be discussed.

Care Plan and treatment are subject to change dependent on patient's response to care and

I certify that I examined the patient and therapy is necessary on an outpatient basis and these services will be provided while the patient is under my care. The above plan of care is established and will be reviewed every 30 days. The rehabilitation potential is good.
