

See What's New from PayDC!

Here's what's in this release (September 2, 2016)

Enhancements

- SOAP Notes: Subjective: HPI/PFSH: Added the option, "None" to the Family health history tab. This option will most widely be used when the family member does not have any known conditions.
- SOAP Notes: Exam Findings: Vitals: Added O2 saturation (SpO2) in the vitals area of the exams.
- SOAP Notes: Exam findings/ROM: We have modified the "All" button. You will now be able to "select all", "deselect all", or continue to choose the ones that are applicable.
- Patient Portal: We have synced the list of suffixes in the emergency contact and other areas of the Patient portal with the list of suffixes that are available in the demographics section of the main application.
- Mobile: Exam findings: Added checkboxes to Limited by fields, added select all and deselect all option, and added the O2 saturation(SpO2) field to vitals section of the exams.

Support

- Soap notes: Exams: If ROM findings are entered before clicking "exam," it was erasing all ROM entries. This issue has been corrected.
- Other related billing fixes

Thank you!

PayDC/APS Development Team

Questions? You can always contact the Service Desk.

- If you are a PayDC customer, the phone number is [\(888\) 306-1257](tel:(888)306-1257); please choose option 4 for Service Desk.
