- Billing: Claims: When printing a claim with more than six service lines, claims will print two pages to allow for the additional service line items.

- SOAP Notes: Exam Findings: We have added a new Import button for exam tests under the exam findings. This button gives you the ability to import all of the previous exam findings for that specific test.

For Example:

- Mobile: Exam findings: Added the new import button at each exam/test level for our mobile users.
- Patient Portal: We have synced the questionnaire screens with the corresponding screens on our main application.

Support

- Scheduler: We have corrected an issue that was causing the calendar to have additional lines in the calendar view.
- Other minor bug fixes.

Thank you!
