Here's what's in this release (September 29, 2016)

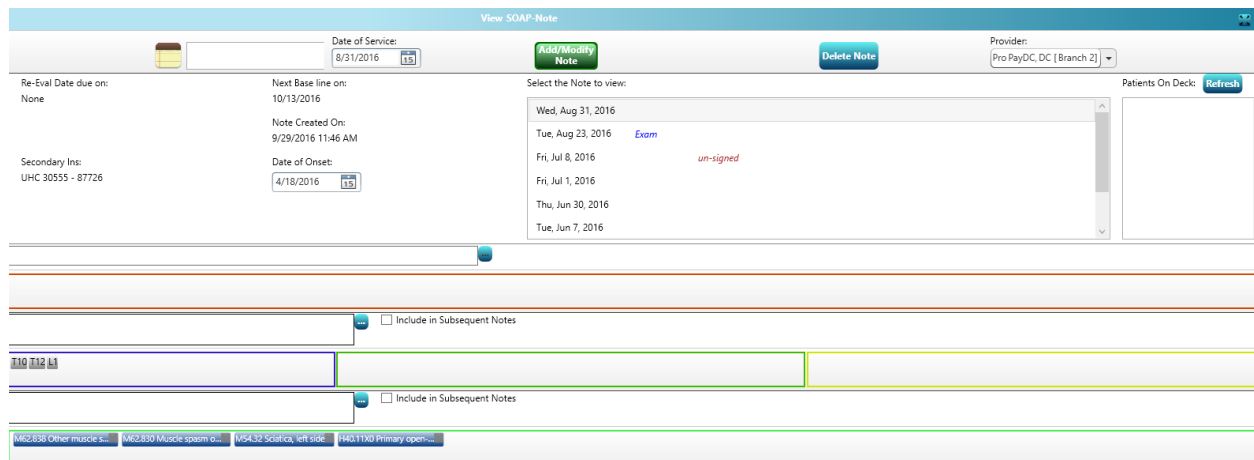

Functional Enhancements: ICD-10

This release has been focused on updating our software with the 2017 ICD-10 codes that become effective on October 1, 2016.

Enhancements to the software for these changes include:

- Pop up message advising if the code is no longer a valid code.
- Conversion of your ICD-10 care plans to 2017 version.
- A separate email to those who were using any of the deleted codes, that will no longer be a valid ICD-10 code after October 1, 2016.
- Continued support of ICD-10 2015 codes for legacy notes. The date of service serves as the guideline and trigger as to which set of codes will be available for use, ICD-10 2015 versus ICD-10 2017 codes. This is critical for anyone who is creating care plans, exams, notes, and claims for dates of service **prior** to October 1, 2016.
- Ability to update the ICD 10 equivalents, if a particular code has been deleted

In this example, we have created a legacy note which has one code that is being deleted as of October 1, 2016:

The screenshot displays the 'View SOAP Note' interface. At the top, there are fields for 'Date of Service' (8/31/2016), 'Add/Modify Note', 'Delete Note', and 'Provider' (Pro PayDC, DC | Branch 2). Below these, there are sections for 'Re-Eval Date due on:' (None), 'Next Base line on:' (10/13/2016), 'Note Created On:' (9/29/2016 11:46 AM), and 'Date of Onset:' (4/18/2016). A 'Secondary Ins:' field shows 'UHC 30555 - 87726'. A 'Select the Note to view:' dropdown menu is open, showing a list of dates: 'Wed, Aug 31, 2016', 'Tue, Aug 23, 2016' (marked 'Exam'), 'Fri, Jul 8, 2016' (marked 'un-signed'), 'Fri, Jul 1, 2016', 'Thu, Jun 30, 2016', and 'Tue, Jun 7, 2016'. Below the dropdown, there are checkboxes for 'Include in Subsequent Notes'. At the bottom, there are tabs for 'M02.830 Other muscle sp...', 'M02.830 Muscle spasm o...', 'M54.32 Sciatica, left side', and 'M50.11X0 Primary open...'. A 'Patients On Deck' section with a 'Refresh' button is visible on the right.

Upon creating a new note, for this example patient, with a date of service after the cutoff date (for our testing, date of cut off was September 1st), you will receive the following pop up message advising which code is not a valid code.

New SOAP-Note

Date of Service: 9/29/2016 15 Add/Modify Note

Re-Eval Date due on: None

Next Base line on: 10/13/2016

Note Created On: 9/29/2016 11:48 AM

Secondary Ins: UHC 30555 - 87726

Date of Onset: 4/18/2016 15

Select the Note to view:

- Wed, Aug 31, 2016
- Tue, Aug 23, 2016 *Exam*
- Fri, Jul 8, 2016 *un-signed*
- Fri, Jul 1, 2016
- Thu, Jun 30, 2016
- Tue, Jun 7, 2016

Include in Subseq

Include in Subseq

M62.838 Other muscle s... M62.830 Muscle spasm o... M54.32 Sciatica, left side H40.11X0 Primary open...

Include in Subseq

Soap Notes - Deleted Codes

The following code(s) does not exist in the new ICD-10 version, please choose the valid codes: H40.11X0

OK

Once you click ok and acknowledge the pop up message, the invalid code is automatically removed from the assessment and plan section.

The screenshot shows the 'New SOAP Note' interface. At the top, there are fields for 'Date of Service' (9/29/2016), 'Add/Modify Note', 'Delete Note', and 'Provider' (Pro PayDC, DC [Branch 2]). Below these are sections for 'Re-Eval Date due on' (None), 'Next Base line on' (10/13/2016), 'Note Created On' (9/29/2016 11:48 AM), 'Date of Onset' (4/18/2016), and 'Secondary Ins' (UHC 30555 - 87726). A 'Select the Note to view' dropdown shows a list of notes with dates and times. A red box highlights the text 'the invalid code is then removed once you click ok to acknowledge the pop up message.' A red arrow points to a red box in the 'Assessment and Plan' section, which contains the text 'M52.838 Other muscle...'.

Thank you!
