

See What's New from PayDC!

Here is what's in this release (August 18, 2020)

We have included the following Support items and Enhancements:

- Enhanced the Era Worklist performance, which included adding a date range field. The default for this date received field is the past 3 months.

The screenshot shows the 'ERA Worklist' interface. On the left, under 'Filter Criteria', there are three dropdown menus: 'Payer:' (set to 'ALL'), 'Patient Name:' (set to 'ALL'), and 'Claim Status:' (set to 'ALL'). On the right, there is a 'Posting Status:' dropdown (set to 'ALL') and a 'Date Received' section. The 'Date Received' section includes a 'Show Calendar' button with a date of '15' and a dropdown menu currently set to 'Past 3 months'. Below this, there is a 'Processed:' section with radio buttons for 'Yes', 'No', and 'All' (which is selected). A blue 'Search' button is located at the bottom right. A red arrow points from the text in the list above to the 'Date Received' dropdown menu.

- Ability to search claims by claim ID, as well as claim number
- Added bicyclist to auto accident questionnaire

Thank you for trusting us as your software vendor!
