

See What's New from PayDC!

Here's what's in this release (November 11, 2020)

Improvements:

- We have added functionality to the “Find Patient” feature and additional columns to the patient search results. This new enhancement gives you the ability to search for patients by name, as it always has, but now you can also search by Account Number, SSN, Phone number, and Email Address. It will now also display Date of Birth, Gender, Suffix, Active/Inactive status and will allow you to sort and group these fields.
 - Seen below, searching for numerical values returns results where the number may be included in account number, SSN, or phone number:

Account Nu	Last Name	First Name	Suffix	Nick Name	Date of Birth	Gender	SSN	Primary Phc	Email Address	Active
