Here's what's in this Release (February 25th, 2022)

Scheduler: Added unique patient identifier to Scheduler Report.

By Default, this checkbox will be unchecked.

A screenshot of the "Scheduler" application window. The window has a menu bar with "File" and "View". On the left is a sidebar with a "Home" icon and a list of items: "Billing", "Claims", "Reports", "Scheduler Report", "Appointment Detail Report", and "Recall Report". The "Reports" item is highlighted. The main area is titled "Scheduler Report" and contains several search filters: "Branch:" (PayDC: Staging Subscription), "Patient:" (ALL), "Provider:" (ALL), "Appointment Type:" (ALL), "Time Range:" (empty), "Appointment Status:" (empty), "Date Range:" (2/22/2022 to 2/22/2022), and "To:" (2/22/2022). There are "Reset Search" and "Find" buttons. Below the filters is a summary row: "Total Appointments: 0", "Total Scheduled: 0", "Total Arrived: 0", "Total Rescheduled: 0", "Total Missed: 0", and "Total Canceled: 0". Below this is a table with columns: "Date", "Time", "Patient", "Appointment Type", "Provider", and "Status". A red arrow points to a "Patient ID" checkbox located to the right of the "Find" button. The checkbox is currently unchecked.

Checking this box will add the Patient ID column to the report.
