

See What's New from PayDC!

Here's what's in this Release (Nov 21st 2023)

We have added a new validation alert in the SOAP note screen to accommodate CMS requirements for Always Therapy Procedure Codes. This validation alert will prompt the provider to add the GP Modifier, as per CMS requirements.

Upon clicking the Save and Sign button, for all procedure codes with Category Type of either Supervised Modalities, Constant Attendance Modalities, or Therapeutic Procedures, if the GP modifier is not applied to the service line, an alert will display the message: "This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to <Procedure code>."

SOAP Notes :

The screenshot shows the SOAP Notes interface for a patient named Jessy, Preethi. The interface includes fields for Patient, Date of Onset, Date of Service, and Provider. The Subjective section contains the text "PT L-Upper-L... Tingling(8)". The Objective section contains the text "A01.3 Paratyphoid fever". The Assessment section contains the text "A01.3 Paratyphoid fever". The Plan section contains the text "P.A.R.T section(Box 19): Prior Auth. No(Box 23)". A validation error message is displayed over the SOAP Notes screen, stating: "Please fix the following validation errors: Procedure: 97012 This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to 97012." The message is highlighted with a red box and a red arrow pointing to the "Add GP modifier" button.

The screenshot shows a validation error message box titled "Soap Notes - Validation failed on Save". The message states: "Please fix the following validation errors: Procedure: 97035 This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to 97035. Procedure: G0283 This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to G0283." The message is highlighted with a red box and a red arrow pointing to the "OK" button.

The screenshot shows the SOAP Notes interface with a validation error message. The message states: "Please fix the following validation errors: Procedure: 97035 This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to 97035. Procedure: G0283 This payer follows CMS coding guidelines for 'always therapy' codes, please add GP modifier accordingly to G0283." The message is highlighted with a red box and a red arrow pointing to the "OK" button. The background shows the SOAP Notes interface with a table of procedure codes and their details.

Code	Modifier	Description	Type	Body Areas/ Sites	Goals/Rationales	Time	Unit	Diagnoses	Performed by	Exclude in Super Bill
97012		Mechanical Traction	static traction	Body Areas	relieve pain	11		A01.3		

In Settings > Insurance Carriers, we have added a new checkbox labeled "Apply CMS guidelines for GP modifier", which will be checked by default for all carriers with Coverage Type selected as 'Medicare'. **Users can also check this box for any additional carriers that require the GP modifier, for example, United Healthcare.**

Insurance Carriers Settings:

The screenshot shows the 'Add/Edit Settings' window for PAYDC. The 'Insurance Carriers' tab is active. On the left, there is a list of carriers. The 'BCBS IL 1364 - 00002' carrier is selected. The settings for this carrier are displayed on the right. The 'Coverage Type' is set to 'Medicare'. The 'Apply CMS guidelines for GP modifier' checkbox is checked and highlighted with a red box. Other settings include 'City' (Indianapolis), 'State' (IN), 'Zip' (19000 - 5457), 'Phone Number', 'Fax Number', 'Identifier To Use For Box 33' (National Provider Identifier), 'Identifier To Use For Box 33b' (Taxonomy Code), 'Identifier To Use For Box 25' (FedTaxID), 'EClaims Payer ID' (BLUE SHIELD - PA - HEALTHONE - 54721), and 'Download HCFA forms'.

Please be aware: The GP modifier is now required for all "Always Therapy" codes submitted to Medicare. However, if your specific Medicare contractor does not yet require the GP modifier, this validation alert can be turned off by unchecking the "Apply CMS guidelines for GP modifier" for your Medicare Insurance Carrier profile in Advanced Settings.

We have added the word “Thigh” with parenthesis next for the Upper leg in the Body diagram for both Careplan and SOAP note.

The screenshot shows the 'SOAP Notes - Hall, Ryan - Modify SOAP-Note' window. The 'Subjective' section contains the text: '#1 R-Upper-L... Pain(7) Pain with Motion(7)'. The 'Objective' section is currently empty. A dropdown menu is open, showing a list of body areas/sites: Head, Face, Jaw, Ear, Neck, Back, Pelvis, Hip (acetabulofemoral joint), Sacrum, Torso, Shoulder, Arm, Elbow, Forearm, Wrist, Hand, Finger, Upper leg (thigh), Knee, Lower leg, Ankle, Foot, and Toe. A red arrow points to 'Upper leg (thigh)'. The 'Assessment' section shows ICD-9 codes and a table with columns for Code, Modifier, Description, Type, Body Areas/Sites, Goals/Rationales, Time, and Units. The table contains three rows: 98940 (CMT 1-2 Regions, activator techniq, decrease pain, re), 98943 (Extraspinal CMT, joint mobilizator, increase mobility), and 97035 (Ultrasound 1, 2.0 watts per cm, relieve pain). The 'Plan' section is also empty.

The screenshot shows the 'Care Plan Wizard: Modifying Care Plan for Ryan Hall' window. The 'Initial/Acute Care - Select Procedures for Stages of Care' section is active. The 'Stages of Care' list includes 'Active/Corrective'. The 'Procedures' list includes '98940 - CMT 1-2 Regions', '98941 - CMT 3-4 Regions', '98942 - CMT 5 Regions', '98943 - Extraspinal CMT', '97012 - Mechanical Traction', '97014 - Electrical Stimulation-2', 'G0283 - Electrical Stimulation-1', '97110 - Therapeutic Exercise (Ea. 15 Min)', '97035 - Ultrasound 1', '97140 - Manual Therapy (Ea 15 Min)', '97026 - Infrared', and '97032 - Electric Stim - Attended'. The 'Procedure Details' section shows 'joint mobilization' selected. The 'Device' is 'None available', 'Units' is '1 unit', and 'Times per week' is '1 time per week'. The 'Number of weeks' is '1 week'. The 'Select the goals for this procedure' section includes 'decrease pain', 'restore spinal movement', 'relieve pain', 'decrease pain to less than 6 on VAS 1-10 Scale', 'reduce swelling/inflammation', 'reduce soft tissue and joint stress', 'increase mobility/range of motion', and 'improve posture'. The 'Select body areas/sites to be treated' section includes 'Torso', 'Shoulder', 'Arm', 'Elbow', 'Forearm', 'Wrist', 'Hand', 'Finger', 'Upper leg (thigh)', 'Knee', 'Lower leg', 'Ankle', 'Foot', and 'Body areas/sites not applicable'. A red arrow points to 'Upper leg (thigh)'.

We have removed the word "Posterior" in the SOAP note Narrative, from the "Posterior Patella" in Objective Exam findings for Tenderness and Edema.

Care Plan Type: Acute
Visit #: 1/0
Care Plan Category: None
Re-Eval Date due on: None
Primary Ins: BC/BS
Secondary Ins: Not Set
Next Base line on: 12/1/2023
Note Created On: 11/17/2023 7:18 AM
Select the Note to view: Fri, Nov 17, 2023 un-signed
Patients On Deck: Refresh

Progress Graph
File Cabinet Most recent imaging file: 12/20/2022

Described as occasional (up to 25% of day) of minimal to slight intensity (symptom is not alleviated by any amount of modification to ADL).
